What is File? - Chaudhary Charan Singh University

File is a collection of records related to each other. The file size is limited by the size of memory and storage medium. There are two important features of file: 1. File Activity 2. File Volatility File activity specifies percent of actual records which proceed in a single run. File volatility addresses the properties of record changes. It helps to increase the efficiency of disk design

Tax file number application or enquiry for an individual
